

Connecticut Inhalant Task Force

Is Proud To Present A Free Training Opportunity

Inhalants:

Nothing To Sniff At

Wednesday May 13, 2015

9:00 am - 12:00 noon

5 Brookside Drive, Wallingford, CT

**** Bonus Session: 12:00 noon – 1:00 p.m.****

Who Should Attend

- School Administrators
- Youth Serving Professionals
- Health Educators
- Prevention Specialists
- Law Enforcement Officers
- Juvenile Justice Professionals
- Counselors
- School Nurses
- School Purchasing Agents
- Youth Sports Program Directors & Coaches
- Faith-Based Leaders
- Parents

Inhalants can kill without warning the very first time they are used!

For too many adults inhalants are just not on the radar, despite the fact that an increasing number of middle school-age youth, and grammar school-age youth, are experimenting with these ordinary household products. Inhalant abuse continues to be a matter of concern in CT. Huffing, sniffing, glading, inhaling – it's all dangerous, common and deadly.

Participants will learn

- Inhalants 101- who, what, where and why?
- Assessment & referral overview for treatment
- Special considerations needed for prevention education
- Resources and tools that you will need

In addition, members of the CT Inhalant Task Force will discuss the Task Force's current efforts in the state and outline its current technical assistance programs that are available to schools and communities. This training is required if you wish to attend future Train the Trainer sessions

**** Bonus Session 12:00 noon - 1:00 p.m.**

Inhalants 102: More in-depth discussion open to everyone and discuss your particular concerns for your clients or organization
